Why choose an aftermarket friction brand that looks like the OE...

...when there's one that performs like it as well.

As the saying goes, appearances can be deceptive. And whilst many friction brands make claims that their products are 'OE Quality', in truth few are.

But fit Mintex and you can be assured that you're making the right choice.

Mintex is developed, engineered and tested alongside the OE friction we supply to the majority of today's leading vehicle manufacturers. This means that by choosing Mintex, you and your customers will benefit from an aftermarket product that has much more in common with the original part than just its looks.

So beware of cheap imitations, fit Mintex.

We only partner with the best

THE SOUND OF SILENCE

Introducing Mintex FIT, an innovative floating isolation shim technology, which combines the integrity of a mechanical lock shim, with the superior noise dampening capabilities and resistance to shear-based isolation of Japanese style OE shims.

For more information on the Mintex FIT Shim visit www.mintex.com

MINTEX® FIT

FLOATING ISOLATION TECHNOLOGY

SHIM

Mintex FIT floating isolation shim technology gives Mintex FIT Shims superior noise and vibration reduction properties. The Mintex FIT Shim combines the integrity of a mechanical lock shim with the superior noise dampening capabilities and resistance to shear-based isolation of Japanese style OE shims.

SELF-LOCATING

SNAPS ON BY HAND

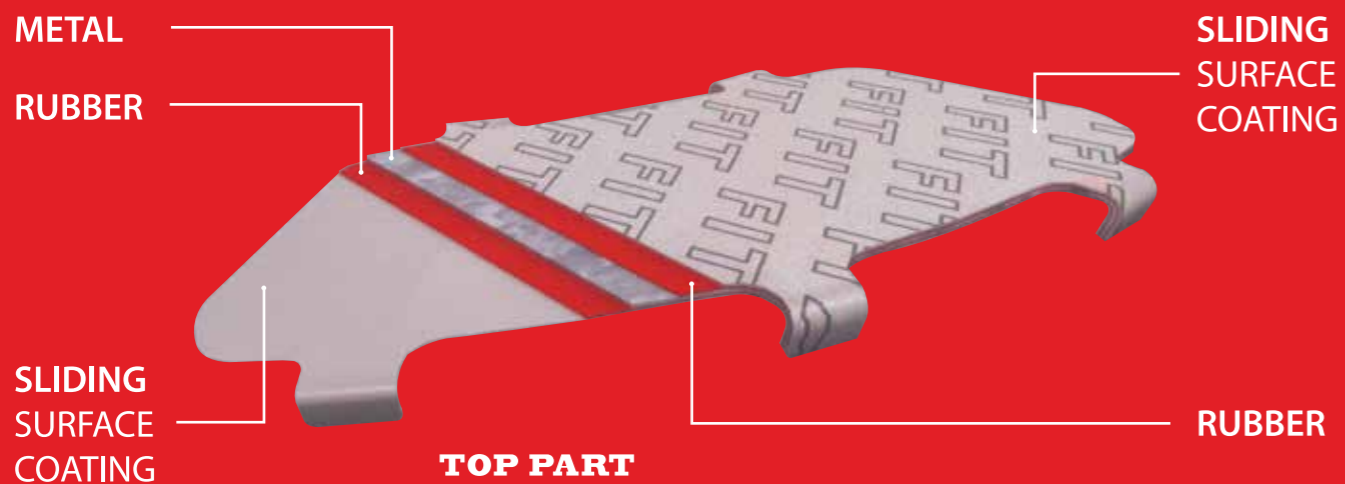

SELF-LOCKING

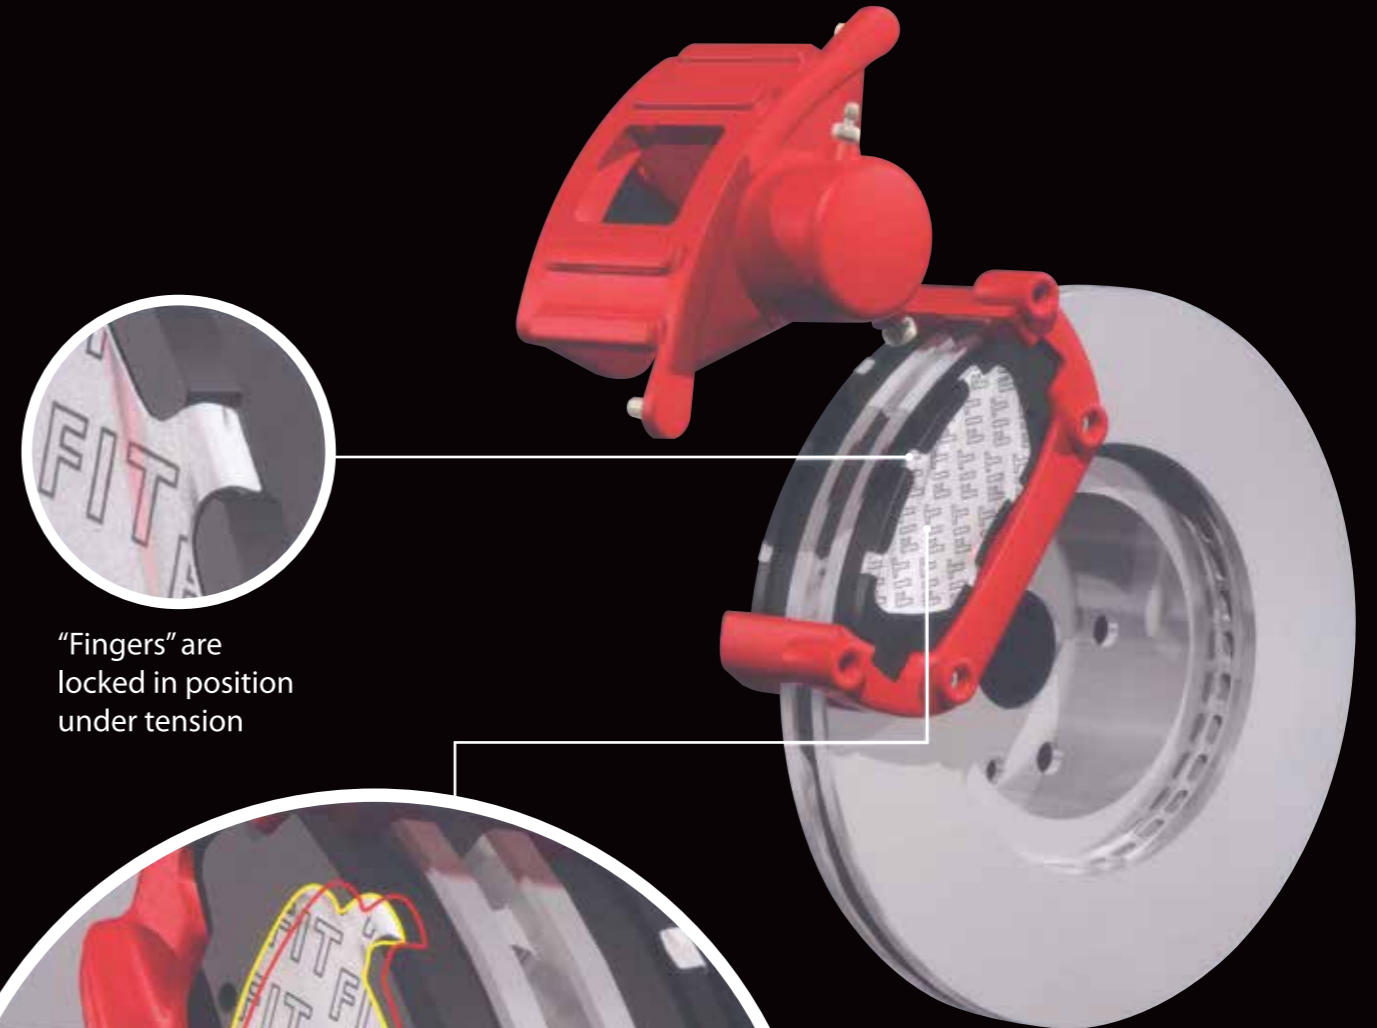

Mintex FIT Shims are included in the brake pad packaging and can be fitted as shown above. You will also find fitting instructions in each box.

FLOATING ISOLATION TECHNOLOGY

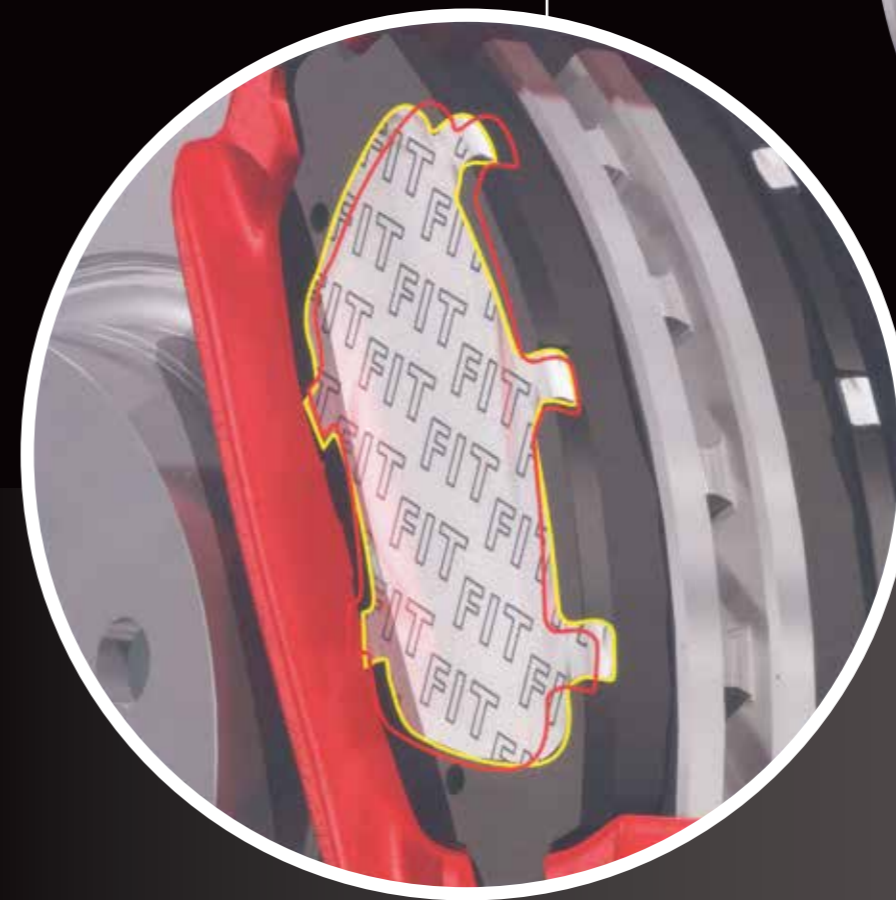

OE GRADE SHIM MATERIAL FOR SUPERIOR NOISE DAMPENING

INTELLIGENT NOISE REDUCTION

"Fingers" are locked in position under tension

MINTEX FIT SHIM PERFORMANCE UNDER BRAKING

MINTEX®
BRAKING WITH TRADITION

DURING BRAKING

The FIT Shim is allowed to move freely with its floating isolation technology

AFTER BRAKING

The FIT Shim returns to its original position

DON'T GAMBLE WITH YOUR BRAKES

Do you really know where your parts are coming from? Don't be fooled by cheaper, inferior products that could put lives at risk.

We don't claim to be experts; we are experts with more than 100 years' experience manufacturing high-quality, performance-driven, safety-critical brakes.

Part of TMD Friction, one of the global leaders in OE friction material, Mintex Brake Pads are manufactured in Europe for European cars. From racing track to road; from garage to forecourt, Mintex is the name trusted by professionals since 1908.

MAKING BRAKE PARTS THE PRIORITY

INTRODUCING MINTEX BRAKEBOOK, THE ULTIMATE APP FOR IDENTIFYING BRAKE PARTS.

Garages and factors can now search for brake parts quickly and easily with Brakebook, an online and app-based portal.

Features include:

- Vehicle registration look up.
- Product catalogue downloads.
- New to range product updates.
- Expert search functionality by component size.

Brakebook is available across **Apple** and **Android**.
