- Increased Profits
- It Secures Your Garage in the Market.
- Keeps You Ahead of Your Competitors.
- Better Customer Experience Increases Loyalty

BER Customer Awareness

OE Brand support

Top Auto partner, Blueprint Autos, celebrating 10 years in business

While purchasing and stocking my service products through a wholesale programme gives me a price advantage, it is the ability to get work on and off lifts more efficiently and allowing for faster turnaround times that has been the major advantage. I'm no longer having to ask customers to wait or in many cases, return on another day. This programme allows me offer the highest quality Original Equipment service products with 98% stock coverage at my fingertips. Along with guaranteed stock rotation I have zero dead stock. I have since added the optional software package offered by TopAuto which has dramatically improved time management and pricing which has further improved resale margins and profit. As a leading independent garage, I have no hesitation in recommending this programme to like-minded independent garage owners.

Tommie Rafferty *Blueprint Autos Roscommon*

Partnership with key trade advantages while retaining full independence
